

Circles: Area & Circumference • Grade 7

Name _____ Date _____ Score _____ / 6

01 Circumference of a circle with radius 23 cm (use $\pi \approx 3.14$) =

Answer: _____

02 Circumference of a circle with radius 36 cm (use $\pi \approx 3.14$) =

Answer: _____

03 Circumference of a circle with radius 39 cm (use $\pi \approx 3.14$) =

Answer: _____

04 Circumference of a circle with radius 17 cm (use $\pi \approx 3.14$) =

Answer: _____

05 Area of a circle with radius 28 cm (use $\pi \approx 3.14$) =

Answer: _____

06 Circumference of a circle with radius 24 cm (use $\pi \approx 3.14$) =

Answer: _____
