

Circles: Area & Circumference • Grade 8

Name _____ Date _____ Score _____ / 6

01 Circumference of a circle with radius 10 cm (use $\pi \approx 3.14$) =

Answer: _____

02 Circumference of a circle with radius 15 cm (use $\pi \approx 3.14$) =

Answer: _____

03 Circumference of a circle with radius 11 cm (use $\pi \approx 3.14$) =

Answer: _____

04 Circumference of a circle with radius 3 cm (use $\pi \approx 3.14$) =

Answer: _____

05 Circumference of a circle with radius 5 cm (use $\pi \approx 3.14$) =

Answer: _____

06 Circumference of a circle with radius 9 cm (use $\pi \approx 3.14$) =

Answer: _____
