

Circles: Area & Circumference • Grade 8

Name _____ Date _____ Score _____ / 6

01 Circumference of a circle with radius 15 cm (use $\pi \approx 3.14$) =

Answer: _____

02 Area of a circle with radius 20 cm (use $\pi \approx 3.14$) =

Answer: _____

03 Circumference of a circle with radius 1 cm (use $\pi \approx 3.14$) =

Answer: _____

04 Area of a circle with radius 16 cm (use $\pi \approx 3.14$) =

Answer: _____

05 Area of a circle with radius 14 cm (use $\pi \approx 3.14$) =

Answer: _____

06 Circumference of a circle with radius 23 cm (use $\pi \approx 3.14$) =

Answer: _____
